SUMMARY

Aspiring software developer aiming to work in a collaborative development environment where I can apply my skills as software developer in JavaScript, React.js, Node.js, Express.js, and MongoDB to build scalable, efficient, and user-centric applications. Looking forward to contributing to an innovative organization while continuously expanding my MERN stack and full-stack development expertise.

TECHNICAL SKILL

- **Languages:** JavaScript, Java
- **Frontend:** HTML5, CSS3, React.js
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, SQL
- **Tools:** Git, GitHub, VS Code

EDUCATION

- BIET, Lucknow |B. Tech /Information Technology | June '17-June'26 |CGPA -7.7
- MD Inter College, Varanasi | 2022 | 69.33% | -12th
- MD Inter College, Varanasi | 2020 | 79.66% | -10th

EXPERIENCE

- **MERN Stack Training | Analyze Infotech** (Oct 2025)
Building responsive and scalable web applications with MERN and focus on RESTful API integration and database management.
- **Java Development with AI -Trainee | HCL Tech** (Mar 2025)
The learning objective of this program is to Develop Application, by writing, debugging and executing the code, specialization in Java Suite.

ACADEMIC PROJECTS

- **Hotel Booking System (Training Project)**
 - Developed a full-stack Hotel Booking System using the MERN stack (MongoDB, Express.js, React.js, Node.js).
 - Implemented hotel search, room availability checking, and online booking functionalities.
 - Designed responsive user interfaces with React for seamless hotel browsing and reservation management.
 - Developed secure user authentication and authorization using JWT.
 - Integrated booking management features, including reservation history, booking status, and cancellation options.
 - Used MongoDB for efficient storage and management of hotel, room, user, and booking data.

- **AI-Powered Resume & Interview Assistant (Final Year Project)**
 - Developed a MERN-based web application for creating ATS-friendly, professional resumes.
 - Implemented dynamic resume templates with real-time editing using React.
 - Integrated AI-powered suggestions for resume improvement and PDF downloads.
 - Integrated AI-based features to generate interview questions and provide answer evaluation with feedback
 - Designed mock interview simulations to help users practice and improve communication skills
 - Used MongoDB for efficient storage of user profiles and resume data.

ACHIEVEMENTS & CERTIFICATIONS

- MERN Stack Development Certification – Analyze Infotech
- Web Development Certification – Digital Navik
- JavaScript for Beginners Certification – Simplilearn
- Java Development Certification – HCL Tech
- Research Paper Publication Certificate – Scopus Indexed Journal (2026)
